SUMMARY

BS Computer Science student and Freelancer for Fiverr with 1 year of extensive experience in supporting global clients with mobile, desktop, and web applications. Passionate about cutting-edge technologies and their impact on global business.

EXPERIENCE

Freelancing Fiverr

April 2021 – Present, Lahore, Punjab

- Developed amazing android and iOS apps in the dart, swift, and helped produce a successful release.
- Developed 10+ fully functional desktop applications with java, c++, and python.
- Developed automation tools for businesses to automate tedious and repetitive tasks.
- Managed a portfolio of 50+ projects with multiple clients, through the application of best practices, including Agile software development, data modeling, and test automation.

PROJECTS

Mess Record App

November 2021 – December 2021

- Volunteered to help students living in hostels to keep their mess records by building an easy-to-use mobile application, installed by 2000+ students in the first release.
- Managed a team of 4 members to develop a new record-keeping app. Successfully launched the app within 30 days of the start date.
- Gained experience in project management, team coordination, and software development.

TXTED

October 2021 – October 2021

- Managed development and design of the TXTED application, a simple command-line utility for basic text processing.
- TXTED helped automate 5+ repetitive and tedious tasks on text files.
- Applied Rapid Application Development skills to complete project 4x faster.
